

Solar Photovoltaic Modules

UPL

M5 & P5 Series

*M5 Series:
Monocrystalline modules*

High Performance Solar Cell

The electrical performance of every manufactured solar cell is individually tested and sorted according to very narrow current classes. This means that you get a high performance solar cell with precisely defined characteristics. The performance of the solar cell is measured at Standard Test Conditions (STC): 1000 W/m², AM 1.5, 25 °C

*P5 Series:
Polycrystalline modules*

Small Power Modules

Medium Power Modules

High Power Modules

P_{max}: Maximum power
I_{sc}: Short circuit current

V_{oc}: Open Circuit Voltage
I_{mpp}: Maximum power point current

V_{mpp}: Maximum power point voltage

Small Power

USP5
